

Twin Demand Water Softener

- Ideal for large families with high water use
- Maximizes efficiency by using 100% of each tank's ability to soften your water before switching to the auxiliary tank
- Soft water brining and regeneration adds years of maintenance free service
- High performance 1" control valve and distributor ensure maximum water flow throughout your home
- Twin tank design allows for 24 hour soft water service even during the regeneration cycle
- Uses salt based only on your exact water usage
- Lifetime warranty on all three tanks, 7 year warranty on the valve and all other parts
- Can be customized and sized to fit your family's needs

Provides Continuous, Efficient, Unlimited Water Conditioning

The Commers Twin Demand System will provide 24/7 soft water. When tank A uses 100% of its softening ability, the system automatically switches to tank B giving you uninterrupted soft water. This unit is great for large families or light commercial use.
